

Demand 100% Whole-fruit Cranberry Powder.

Bioactives
ARISE

Arise Bioactives Whole-fruit Powder is made by drying and milling cranberries grown in Wisconsin, USA. Unlike many byproduct powders, this powder does not contain artificial carriers and provides a broad spectrum of cranberry nutrients.

Whole-fruit Powder

Identification:

Product Name: Whole-fruit Powder
Product Code: CPWFP
Ingredients: Cranberry Fruit
Excipients: None
Botanical Name: Vaccinium Macrocarpon

Characteristics:

Appearance: Reddish Powder
Odor: Characteristic of fresh cranberry fruit
Flavor: Characteristic of fresh cranberry fruit
Particle Size: >80% by weight through 40 mesh screen
Bulk Density: 48 ± 8 g/100cc
Shelf Life: 24 months from date of manufacture when properly stored
Packaging: FDA approved HDPE bag in box, 20kg

Typical Analysis:

Moisture: 6.5%
Protein: 0.5%
Carbohydrates: 48.5%
Fat: 1.3%
Ash: 1.2%
Dietary Fiber: 42.0%
pH: 2.8

Total Phenols: 3.0%
ORAC: 385 uM Trolox Equ/G

Vitamin C: 95.2 mg/100g
Calcium: 401 ppm
Potassium: 4730 ppm
Sodium: 602 ppm
Magnesium: 353 ppm
Phosphorus: 550 ppm
Niacin: 0.71 mg/100g
Riboflavin: 0.06 mg/g
Thiamine: 2.95 mg/g

Typical Analysis (Continued):

Quinic Acid: 5.95 g/100g
Citric Acid: 7.34 g/100g
Malic Acid: 6.82 g/100g

Fructose: 11.1 %
Glucose: 37.3%
Sucrose: n.d.
Maltose: 0.6%
Lactose: n.d.

Microbiological Specifications:

Yeast and Mold: < 1,000 cfu/g
Aerobic Plate Count: < 10,000 cfu/g
E. Coli: n.d. MPN/g
Staphylococcus: n.d. cfu/g
Salmonella: Neg. org/25g
